DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-9, and 11-18, and further the election of Species B, as depicted by Figures 6A and 6B, without traverse in Paper No. 10 is acknowledged. The traversal is on the grounds that the Examiner has not demonstrated that there would be serious burden to examine all of the inventions, including non-elected inventions drawn to a cryogenic air separation process and a method of assembling an exchange column. This is not found persuasive because the search required for the elected invention does not extend to the areas required for the non-elected inventions.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 6, 11, 12, 14, and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bruckert (Fig. 5).

4. Claims 1, 2, 5, 11, 12, and 15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bentham (Figs. 1 and 2).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
